

My Sharings

This is the second time I went to a study tour with my friends and teachers. I was very excited before this trip as I thought that Auckland will be a wonderful place. After this tour, I could say that I am totally right! Let's start talking from the school and lessons.

The school was a wonderful and joyful school. All staffs and students were friendly and helpful. They always help us when we were in trouble. The lessons there was quite easy. Our teacher, Tertia was very nice and patient. She never scolded students and help them whatever they need. I enjoyed her lesson very well.

The another highlight of the tour is the spectacular spots there. We have been to many places, such as the

Auckland Zoo, Auckland museum, Skyline, Snow Planet and so on. I like Snow Planet most because I was the first time to ski. At first, I was nervous. But after I had learnt the skills, I enjoyed the game very much.
