

My Favourite Animal

Bilby

My favourite animal is Bilby. I like this animal because it is really cute. And I never seen this kind of animal before. They have a pair of long ears. And I also know that they are vulnerable in Australia. I think Bilbies are really clever. They build house by themselves. They make me surprised that they can dig a hole. They look like weak but they really strong. But their threats like rat also afraid of cat. I feel the white tip really cute, too. Their white tip are long. Actually I also afraid of cats too. That why I choose this kind of animals. I really really hate cat!
