## Reflection

My favourite experience in this tour is going to Groves Christian College. I think it is quite fun to learn with students there. First we could get to know more about the unique culture there. Second, going to school with my buddy can be interesting. I can discuss, chat and ask them. So I like going to school.

I like this place a lot. The hostel is great. The food was fantastic. I hope I can still try the food here in the future.

I have learnt to recycling things. Plastics really affect our animals well-being, whatever it's a ocean creature or animals on land or even birds. Also we should use local transportation, not our own cars, in order

to release less guses.

I really like the environment here and the schedule. I hope I can still go to Australia in the future.

Thank You.:)
