

My Sharings

I like ~~this~~ this tour very much because the arrangement of the trip overall is really good, I enjoyed the English lessons the most because the teachers taught ~~us~~ ^{me} patiently though my English is not very good.

I also ~~knew~~ ^{learnt} that there are a lot of students around the world whose English are excellent and I have to work hard through this tour.

In Brighton, there are a lot of tourist spots which are not very crowd. I felt comfortable to visit and our activity leader introduced the

tourist spots to us quite patiently.

I may join the other tour next year but I'm not sure because I'll be form four next year and it maybe busy and I have to spend more time to study, however,

it is a great experience to go to other countries so I'll ~~take~~ definitely consider to join the tour again!
