

### My Sharings

In this trip, I learnt that English is an international language. And, I feel ashamed of being proud of my English, after this trip, I have learnt that my English is not good, so I have to improve to achieve more.

Before this trip, people may think Money > Knowledge > friendship. But in my opinion, I ~~start~~ start to think like this now: Friendship > Knowledge > Money

Because in this trip, I have met many friends. Though they often make fun of me, I feel happy to be friends with them.

I wish that I could live in Brighton for one more week. As my hostfamily and classmates, teachers are so caring. I will not ~~remember~~ forget what I have learnt and my friends.

Cindy and Dave are very caring and friendly. They will give their bests to make our lives more comfortable here in UK. I ~~treasure~~ treasure my experience in UK.

I ~~be~~ am looking forward to visiting Cindy and Dave, visiting UK, seeing my friends again in the future.

I hope I can keep in contact with them.
