

Grace, Chan Long Yan

My Sharings

Throughout the two-week trip, I enjoy my time very much. The trip was fantastic and fun, especially kayaking. We can kayak freely in the middle of the sea and we can see the beautiful sky above us. It's a pity that some student who don't know how to swim cannot join us. Also, the London

trip was interesting. We visited a lot of places, hurry but I could still take photos of (on a) them.

The most enjoyable part of the trip is being with our host family. Our host treats us good and we can communicate with each other by English and body language. It's sad to leave them.

I love this trip and I hope that

I can visit Brighton again in the future.
