

My Sharings

I really enjoy the entire tour, no matter English lessons or the activities. It was an unforgettable experience.

I think it may be the last time before DSE that I can enjoy such relaxing moments.

Everything in Brighton is lovely. Even when we got lost in the city, I still enjoy the time. 2 weeks is too short for

me to know about the city.

The English lessons were interesting. There were fewer students in a class. We can learn English through games & songs.

The game that I like most is taking turns to write down words of certain categories on the board. We had to brainstorm a lot.

It was exciting. However, I really want to experience the ordinary school life of a English students. We always saw them

in the corridors. It seemed that the way they have lessons ~~is~~ is very different from that of Hong Kong students. I am curious about it. If we can get a try, it must be very intriguing.

It was a bit sad that we didn't spend a lot of time in London. London is a fascinating city. Her history & culture

is attractive. Two Saturdays were absolutely not enough! I really want to live in London for few months or even longer in future. So I can explore this beautiful city more deeply.

The arrangement sometimes was not perfect, but good enough! Thanks to all the leaders, teachers and staff members. Really enjoy the tour!! ^{^^}
