

My Sharings

I really enjoyed this trip. During this trip, I could enjoy different life from Hong Kong, learning England culture and the most important thing is, to learn English!! The English lessons were not as boring as I thought before but very funny! We could learn many vocabulary in a funny way. For example, we play 'word cross' ^{for} learning ^{verb} , after ^{the game} our teacher, Jack will demonstrate the action of those words one time to make sure we understand the words! These really help improve my vocabulary. Also, we need to use English to talk to everyone so it helps improve my speaking skills.

Time flies, we're leaving Brighton, I must miss here and the time being with my teachers, friends and host family. Thank

you Brighton, you widen my horizon.
