

My Sharings

It's one of the greatest experience I had. And I tried something that I've never done, such as Disco, kayaking. It was great fun. Also, I have a lot of fun with my friends and have a great time. I met some new friends from all over the world and I know more about cultures of different countries.

During the time in host family, I knew more about Brighton and England. The host mother is really, really, really nice to me and I love spend time with her.

I learnt a lot during this study tour and I met a lot of new friends and I really love Brighton and London.

(of course, the teacher and the guide are really really good and nice).

A massive thank you to Yammy, Jessica, Steven, Bradley, Liam, Jimmy and JACK!
