

My Sharings

It was my first time to go oversea. Also, I got many happy memories and I met a lot of new friends in this study tour.

Before departure, I was worried about the daily and the communication with the foreigners. But there were good arrangement of the classes and the host family. I was not worried anymore.

I got along with my host family on these day. They have taken care of us well. We had dinner together everyday. Sometimes, we made cakes and other desserts together. We had a great time.

I love the activities in the afternoon, especially walking in Seven Sisters Country Park and the kayaking in the

sea. Although I was very tired after that, I enjoyed it and had the unforgettable experiences. Besides, I was attracted by the beautiful view of Brighton and the famous places in London such as the London Bridge.

We had nearly 3 hours of the lessons. I still remember that we need to change the classroom every hour on the first 3 days. I had more time to speak English and talked with the other people from different countries. This was good for me to improve my ^{English} speaking.

After this tour, I had learnt that how to be independent. Also, I had known more about the culture and the history of England. I hope I can visit England ^{again} in the future.
