

My Sharings

"The world is a book and those who do not travel read only one page." - St. Augustine. Just as the saying goes, I signed up and joined this study tour.

During the tour, we have visited some famous spots of Brighton, such as the Royal Pavilion, the Lanes, Brighton Pier and Churchill Square Shopping Centre. By visiting these places, I have discovered the historical value and relaxing atmosphere of Brighton, especially

in the Royal Pavilion and the Brighton Pier. I was completely amazed when I saw the magnificent Royal Pavilion and was impressed by the history of Brighton. The most impressing thing about Brighton for me is the beautiful sea view of the Brighton Pier.

Also, during the tour, we have visited the historical and famous city - London. London is very attractive to me because I love how it is combined with old cultures and modern skyscrapers.

London is a well-known modern city, but unlike other modern cities which only emphasize on modern developing, London have definitely done a great job on preserving historical sites. For example, the Westminster Abbey and the Big Ben, with their long history, are well-preserved and remain their beauty. Through joining the trip and visiting London made me learn more about English culture.

Apart from learning more about the English culture, I also learnt to be braver when it comes to English speaking. Through speaking English everyday in the tour, I become more active and less shy when speaking English. This tour is a very precious and useful chance for me to practice English - as I am a little bit shy and afraid to speak English in daily life.

Last but not least, I enjoyed a lot in this study tour and I was really happy throughout the tour. Just like what Audrey Hepburn said, "to be happy - it's all that matters."
