

My Sharings

In this two weeks, I learnt to be independent and I am much more confident in speaking English. In the trip, the most enjoyable part for me is going to London. It's such a famous place and everyone would love to visit. The Big Ben and London Eye is so awesome. Besides, I have a lot of fun in the lessons too.

My teachers teach us a lot of different idioms, slangs and culture. Sometimes we'll listen to music for relaxing. And I enjoyed a lot. To conclude, I have great fun in Brighton and both my friends and I think that Hong Kong cannot hold a candle to Brighton.
