This is the first time I have traveled abroad since I was born, I want to improve my english level by this study tour, also. I want to learn how to take care of myself at the same time.

To start with, we will ~~going to~~ do a placement test about basic english grammar. After the test, we will check the answers ~~at this moment~~. It is very important that ~~can~~ help me to recognize my mistakes and let me know my english level. After that, I'm going to check my team and my new teacher. When the first day of school, my heart is both nervous and excited. I'm nervous and afraid that I can't understand what they are talking about. I feel excited that I will study in the new school, I don't know what will happen to me. Fortunately, my teacher is very gentle and patient, so that I can slowly express what I'm talking about in english.

I really like this place because Brighton is the most vibrant

southern coastal city in the UK. A walking tour aimed at familiarising students with Brighton, We can see the Royal Pavilion, the Palace Pier, cobbled beaches and unique street alleys. There are many people from different countries, such as Italian, Chinese, Spanish..... etc. When we are going to the Brighton Beach and walking at the street, I'm glad that we ~~are~~ arrived in Brighton City because the seafront is the good place to soak up the sun in the summer. It is a wonderful city for me because I can make new friends from other countries, also can learn about the culture of Brighton.

When I first joined this study tour, I just want to improve my english language, then I felt that this tour could teach me a lot and I could obtain a better way of thinking. In memorable moments, I think it is the third day of Brighton, I'm really glad we're going to Disco at that night because I never try to go to there in Hongkong. I think it is a good try to enjoy this event. It is an unforgettable day for me because it is a new things I have never seen, I try to invite some girls from different countries to dance with me.

Thank You:)
