Reflection

* Please write in English

After this study tour, I experienced that I would try my best to speak in an environment where I only speak English. At the same time, I also experienced the local classes. I feel very different from Hong Kong. It is more relaxed and interesting.

I think this study tour is very satisfying. In the morning, English lessons can be learned in English, and in the afternoon tour can relax and shopping. I like this country, because the weather here is very comfortable and many beautiful scenery. At the same time, this country the host family here is also very nice.

In this study tour, I learned to speak English proactively. If I don't understand the problem, I will take the have initiative to ask others the answer.

Let me take the initiative to adapt to English to communicate.

One of my most memorable thing is in London. When we are afraid of being stolen, we will help each other to see things and remind them of their own things. I feel very warm.

This study tour taught me English and met new friend. I feel very satisfy. ^{more}

Thank You :)
