Finally, I finished this study tour. In this study tour trip, I think my English has been improved a lot. I studied in a school which is called "Dorothy Stringer School". There are many different countries' students, such as Spanish, English, Italian, France, Chinese and Hong Kong. But most of the students also are Italian. I remembered when it was the first school day, I felt nervous because I have separated to a class which has no any Hong Konger, it's just only Spanish and Italian. Only one HK student in that class, that's me. The teachers who taught me for two weeks, are Sian and Joe. Both of them are very friendly and kind. They taught me patiently and explained details to me. So

I learnt a lot of new English words. They also made me talk with the classmates in English confidently. I really like them! I made some friends in the school. They are Andrea, Petro, Damain and Andrian.

About the trip, I have visited many places in England. I have visited London, Lewes Castle, Devil's Dyke, Seven Sisters mountain, Pier and The Disco. The place I like the most is London, it's because in London, there are many different kinds of shops, food and location. I bought a "Spider-Man Lego set" there and ate a grilled chicken. It's very tasty and delicious! The second time I went to London, I visited the Britain Museum.

My memorable moments are I had a good time with my homestay, Rosie and Mike. Also I took some photos with Joe and Italian students. All of them treated me very well! I will miss them all!

Thank
you :)
