

My Sharings

This is my first time joining a oversea studying tour. And I think this is a great experience and a good chance for me to learn how to associate with ~~the~~ people from different countries.

At the begning, I feel very nervous to talk with the people in my class. However, they are all very nice and kind to me. And

the atmosphere in my class is very relax. That makes ^{me} want to study harder than before. During the lessons, I have many chances to speak, listen to different topics that I have never thought or learnt in Hong Kong. I enjoy the lessons in Cambridge.

In my host family, there was a couple, a dog and another exchange students. After the lessons, I can also

talk to the exchange students. They are all very kind and they went shopping with me and my roommates. Also, my host family also brought us to Tesco (a big supermarket in Cambridge). That made us know more about Cambridge.

Finally, I enjoyed the trip in Cambridge. Thank you!
