

My Sharings

In this study tour, I learnt how to take care of myself and my own personal belongings. I have also learnt how to speak a more fluent English and I have learnt different culture in England.

There are not enough time for us to do shopping, but still, our teachers

are trying to squeeze the shopping time for us from cutting down the time for visiting.

We have visited a lot of places in Cambridge. For example, we went to Ely. We went to Ely Cathedral which is a famous church and known locally as "The Ship of Fens". It tells about the Christianity in the

past. The building inside Ely Cathedral was great and full of local flavor. It is eye-opening.

I have bought two necklaces for my mum and grandma. I think Ely was a great place for relaxing. The counsellor in our group is Jesslyn. She was nice. She has

taken a lot of photos of us in this trip. She took photos every place we went. She took great photos.

I enjoyed this trip very much. I must join this kind of trip again if I have a chance.

But I want to have a longer shopping time in the trip next time.
