

Chocolate Factory

by Lai Cho Yan

When I was young, I thought the chocolate factory is in a big building. But when I went to the chocolate factory in Perth, it change my thoughts.

The chocolate factory in Perth liked a house but it was very simple and crude. It had many cupboard inside and had many wood box on the floor. It had many kinds of chocolate let us try. For example: dark chocolate, white chocolate, nuts chocolate, milk chocolate and chocolate ice-cream.

The chocolate taste very sweet and delicious.

It has many shapes and it is very hard.

I like chocolate very much but after I went to the chocolate factory in Perth.

I like chocolate more than past!
