During this two-week study trip, I have ^{gained} a lots of knowledge in the school. My teacher, Natalia, who ^{taught} us a lot of useful things which can apply in daily life. This makes me feel enriched, also in the class, I have met different classmates who come from different countries. Giovanna and Nicolly from Brazil, Sophia from Colombia, Hung from Vietnam. They are very nice and talkative, especially Hung always loves to talking jokes to others, and we will laugh with him together.

In the lessons, Natalia will arrange some activities or games for us to do for making us to understand each other. I think the most interested games is the first lesson we didn't know each other, then Nat told us to use the ball to throw to other people, and call out their names as many as possible. In the end of the game, we can know each

other much better. In the lessons, Natalia is nice and patiently answer every ^{students'} questions, It makes me feel unforgettable.

Also, in the trip, I have visited lots of famous attractions, such as Opera House, Manly beach, The rocks, Blue Mountain, Tangora Zoo... These attractions ^{will} widen horizon, These attractions make me learnt much better of Australia too. I love this place so much, the people not only very kind, but also very enthusiastic to people. They will greet others, will help each others when someone get difficulties. It makes me feel a lot of feelings that I have never had in Hong Kong. Indeed, I am leaving Sydney, and going back to my motherland, Hong Kong, but still this place brings me a lot of ^{unforgettable} experiences, the people I have known in here, the places that I have gone, it makes me feeling great. At last, I ^{would like to} say that I will miss this place so much!

Thank You :)
