

## My Sharings

This is really a new experience and I saw so much new things there. Every things are fascinating and I deepened my familiarity to Australia.

In the first place, I visited a aged centre. I am sure I have brought our energy to the elderly there. Through our performances, I could see their <sup>smiling</sup> faces.

And I was glad that every people there have a comfortable environment. More importantly, there are all treated very well.

Secondly, about the Gold Coast Cristian College. I have a really nice and talkative buddy called Jasmine. She helped me a lot there.

For my English speaking, I improved so much. My sentences are

well-organized. I am more confident to speak English. And I have no problems on the communications with my host family. I am really shocked!

Lastly, I think the tour is worth participating because I learnt so much and I reached my expectations.
