My study trip was great! I get to experience different cultures. I get to meet new people and see very unusual things. The people in this country is really nice and very talkative at the same time! Our host family is really nice and there food is really good! Australia is a really interesting place. The people here is very energetic and really likes to walk in parks. The kids at the park really likes to run around and talk to people. It is a very nice environment in Australia. The air is very fresh and the water in the sea is very clear and very clean. The air in the morning is very cold but yet warm at the same time. The houses here is very beautiful and the beds are very comfortable. In my trip, I have learn a lot of things. Like how to be independent, how to clean up after yourself. I also learn to not

talk when someone else is talking! I learn different history in Australia about there past in class. I was really fun learning all these different things along the trip. I had a lot of memorable thing happen in the trip. Like when we went to Surfers Paradise! The view there was amazing and we made a small pool in the sand with my friends! It was really fun and it helped us get along with one another. The next most memorable thing was when we went to Movie World! It was really fun and I get to go on rides I never dare to go on when I was small! I had a lot of fun with my friends and bought some stuff there for my family! It was a very interesting yet exciting trip! I will never forget the moments we had together in Australia! Even if I go to another school, I will still remember it!

Thank
You :)
