Reflection

* Please write in English

In the summer of 2019, I went to Australia with 19 students to participate in the exchange group project for exchange study.

Arriving in Brisbane, the pleasant climate and fresh air left a deep impression. The Australian school sent a man to drive to the airport to pick us up. We go on the bus and the trip to Brisbane officially began.

Let's go to school and meet with the teacher first. I met Paula at the school gate. I was very excited when I first met her. Later, she also took us to know the surroundings of the school. Later, she went back to school and waited for home stay mums to pick us up and go home to settle down. The first day ended.

Home stay mum's family is very warm and friendly. Every day, mum cooked a lot of delicious dishes = pasta, sausage rolls, Mexican beef patties... Everything is unforgettable, so I have gained a lot of weight during this time. They always wanted me to try something new. I went water skiing, theme parks,

and tried indoor games. The rich experience makes my communication life more exciting.

In the past two weeks, my English level has improved a lot. It is essential to listen and speak English in an English environment. Everyday communication is also English. It has greatly improved in a short time. In addition to the study courses, the school's extracurricular activities are also very rich. There are beaches, mountains, wax museums, sea squid, barbecue activities, but also some famous tourist attractions, such as the zoo in Currumbin. At the zoo we were in close contact with the lovely animals and saw the two kangaroo koalas, two of Australia's iconic enjoyable to have a theme park park activity every weekend.

This trip is very worth while. It gives me the opportunity to experience different cultures, get in touch with a group of friends. I would like to thank my host family for taking care of me during this time, and also to thank Mr. Tony and Ms. Katy for their contribution to this smooth trip abroad. I am very happy to participate in this exchange project. I will definitely recommend this very meaning project to interested students.

Thank You :)
