Firstly, It is my great honor to join this Study Tour. I benefited a lot from this Study Tour. Let me share my experiences in the Study Tour.

Undoubtedly, Australia is a dynamic country. That is a diverse country integrating Eurasia, Oceania and indigenous peoples. Likewise, Australia is a rich and wonderful tourism country, which is full of unique natural landscape and a wide variety of wildlife. I really enjoy the local environment and atmosphere. It made me wish I could never forget it.

Notably, the destination of the study tour is the gold coast. As we all know, the gold coast is Australia's most famous holiday resort, with a charming subtropical climate all the year round. which attracts millions of tourists every year. The most unforgettable scenery for me is the endless golden beach. Besides, there are many

famous and interesting scenic spots. I don't want to express more about the scenic spots. Because you don't know how much fun it is until you experience it.

Primarily, teaching activities are the focus of the Study Tour. I get a lot of useful knowledge and information from that. Our study tour stayed at the international student exchange center for two weeks. At the International Student Exchange Centre, experienced teachers provide suitable teaching content and methods for students of different ages to learn in a happy and safe environment and develop their interest in language learning. For our study tour, we can interact with students from different countries, experience different cultural exchanges and enhance our international vision. It was a hard-earned experience for me.

All in all, the gold coast is worth going to. I believe this Study Tour is excellent quality and reasonable price. Nevertheless, I'm still not used to Australian eating habits.

Thank You :)
