

My Sharings

The two weeks study tour in Germany is meaningful and interesting. Although we don't learn much in English, we can learn German is a surprise for us. Better than take English class two weeks. I think it is great that we can learn another foreign language. After the tour, I might continue to learn further German language.

There are few things I would never forget. First, the host family. The first three days has taken care by Robert, who is a teacher. Provided large quantity and good taste food and sleeping place. The rest of the days was taken care by Christina, who said she like a free lance. Also provided traditional German food for us and feed us full, bring us viewing the whole Stuttgart city. Both host family is very nice, open-mind, and friendly.

The second is bread and breads. German eats bread whenever in breakfast, lunch and dinner,

even snack. Made us always feeling full. In breakfast, we eat bread with butter, jam, nutella, sausage and other foods. Or drink chocolate and milk. I never forget the 'heavy' meal.

The last thing I never forget is learning German. It's a hard path to learn better German. I spent days to learn and improve my German. Still I could only speak very simple and easy

German like good morning, hello and I'm tired. Spend hours ask the same word to memorize how to speak.

In conclusion, it is one of the best trip I've went. I hope I can visit Germany or Stuttgart again. Besides, I'm enjoy to watch World Cup in Germany. I can feel the atmosphere of football celebration!
