

### My Sharings

I had never been to England before I joined this trip. I enjoyed the trip very much although the cultures in England are different from Hong Kong. I loved everything in England such as the weather, food and accommodation but my most favourite thing in England was the people, especially my host mum. Through these two weeks, I spent lots of time talking and playing games with her. I love her so much and I will miss her. There ~~are~~<sup>were</sup> many activities at school and all the students had lots of fun together. We went to different wonderful places and learnt more about the cultures in England. My most favourite activity ~~is~~<sup>was</sup> to visit Southport because there are exciting games to play and spectacular views to enjoy. Furthermore, night activities ~~are~~ were exciting and new for me. My friends and I always went shopping after school for buying souvenirs and cheap snacks.

It is the time to leave, I will never forget the things I ~~do~~ did and met in England and I hoped I will be back in the future.  
Love England. ♥
