## Reflection

The study tour was great. My study tour went very well. I like this place country very much. We went to many different famous attractions to learn the history behind them. We took a lot of great pictures in every beautiful attractions.

Whenever we only have an hour or half free time, we go to eat some delicious food. At the same time, we also go to various stores to buy souvenirs for our family and friends.

I have learned a lot from this study tour. First of all, we must respect different people, no matter what country they come from or what

color they are. Second, I learned that we must be punctual. Third, I learned that we must be active to speak English to foreigners in order to train our English.

The most unforgettable thing is that Edison performed magic tricks for English students. They all expressed their appreciation.

Our host family is very kind and tolerant to us.

In a word, this study tour was very good. I learned a lot of things that I could not learn from textbooks.

Thank You:)
