No going further out than Asia before, I am so excited about this trip. When I first came here, I felt so different from Hong Kong. Even though Vancouver and Hong Kong are both big cities. The place is so much bigger than Hong Kong. Moreover, the air is more fresh and there are more trees here. Beside the good environment, the people here are so much nicer. They say 'thank you' and 'morning' when they get onto the bus. And that is why I think I am in love with this place.

This study trip was great! I have learnt lots of things that I can't learn in Hong Kong. Such as, I learn that students here don't learn in great pressure as students in Hong Kong. Beside being pushed to learn new things, they learn things themselves. The little boy in our host family is only 6 but his vocabulary bank is

richer than mine. Also he knows many things about space which he had learnt from the books he had read from the library. It shows a significant difference from children from Hong Kong and Canada. Children in Hong Kong have to be pushed to read books from the library. It shows why other countries' kids are much smarter than HK kids.

The memorable moment is when I went to Indigo, a famous bookstore in Canada. I found that the books in Canada are more entertaining than the ones in Hong Kong. And I believe that's why kids like to read books.

In a nutshell, this tour is very 'interesting' as I learn different things that I can't learn in Hong Kong and in books. Moreover, this is a very precious experience for me to learn to 'live by myself' without my family by my side. I have learnt a lot during this trip. Thank you for organizing it!

Thank
You :)
