I think this experience is very nice for me.

I enjoyed the study trip and I liked the country too!

I think the homestay family is nice. I had visited tourist attractions of Vancouver, such as Downtown (It is Vancouver's primary business district, it also is close to several vibrant residential communities), Vancouver Public Library (The public library system for the city of Vancouver, British Columbia and there is: the third-largest public library system in Canada), Stanley Park (The park has a long history and was one of the first areas to be explored in the city. The study tour stuff and us played some games. It was so interesting and exciting!) Etc.

The country has different food too! Such as, ice-cream,

pizza, burger and so on. They were so yummy and delicious!

Through the Study Tour, I learnt Canadian culture and taste food. I also improved my self-care ability and get along with others.

I think Canadians is outgoing and enthusiastic!

They sometimes helped us when we had problem.

We also played game with groupmates. Hunt game is one of that. We divided groups by ourselves and we needed to find something that was on the paper.

Finally, I want to thank all of the Study Tour stuff (hard work for you guys), classmates (we played together, I met you all and hoped next times can play together too) and teachers (thank you all to help us and so on).

This is a unforgettable and meaningful memories for me!

Thank You :)
