## Reflection

In this study tour, I actually liked the studying part more than the tour part. My school Phoenix Academy is an excellent school, nice campus nice classrooms and nice teacher. My class teacher, Judy is a very nice and kind person, she made her lesson fun but at the same time meaningful, I could tell that she is a nice teacher. My class was a multi-nation class containing people from China, Vietnam, France and Indonesia and the class was very friendly and enthusiastic to me. Sometimes when I don't know what to do, my class and Judy will teach me step by step, they were the absolute best. Before I came to Phoenix Academy, I thought studying is boring because everyday was the same, but after I came to Phoenix Academy, it proved that I was completely wrong, studying was very fun and interesting in Phoenix Academy. Compare to the study part, the tour part was a bit off.

Although some of the activities were interesting like visiting Kings Park, the Caversham Wildlife Park and the Perth Mint. Other than that, the other activities disappointed me a lot like the beach tour, It is winter in Perth and we are going to the beach for a tour, I didn't do anything because it was freezing, the Fremantle Market was like the street markets in Hong Kong and the shopping mall visit was pointless, I can visit a shopping in Hong Kong why Australia? The homestay of mine was very good. Although their place was a little bit dirty, there were nice and kind they treated me like their child, they always ask me what I did, we had some fun conversations. We had a great time together. Overall this trip was fun Australia was totally different compare to Hong Kong, the people in Australia were nicer, the places in Australia were bigger. Learning in Phoenix Academy was fun, I felt like I don't want to leave while I am in my class at Phoenix Academy I want to thank them for giving me such a fun time, I would like to come back to Perth if I can.

Thank  
You:)
