

My Sharings

After this trip, I knew more thing. They were two sides. First, bad thing about the trip. I think that trip should be more longer such as turn 2 weeks into 1 month, since now we are here for 2 weeks but in our school, the other international students are in here for 3 months. I think stay here for more longer can exactly training our communication skills and independence. Although if we stay here for 1 month the price will be higher, I still hope it can be happent.

Second, good thing about the trip. There were a lot of evening activities everyday, in the activities, you must use English to communicate with spanish people. The most unforgettable events is the disco, since in our age, we can't go to the disco in HongKong. But in here, we can!! We dance in the bar, chat with the other girls. That is unforgettable. Also, in the last day of the school, we took photos, giving a hug and said good bye.

In this process, it really let me know what is friendship!

Last but not least, this trip is fantastic!!
