

My Sharings

In this London study tour, I had learn a lot of things.

First of all, in ISIS centre, I have learnt many new English vocabulary and some articulate. I can go to lots of attractions like Tower Bridge, London Eye, British Museum, Oxford street and the Sherlock Holmes Museum. It make me very satisfied.

As I have joined this study tour, I speak English very well. I am not afraid of talking with different people. My host family do a catering service. I admire them because the food is delicious.

I don't like taking Underground since it is crowded and hot. I walked a very long time.

I hope I can go to study tour next year. We had a great time.
