

My Sharings

In the study tour, my favourite activities are going to London and The Liverpool Football Club (L.F.C). It is because in London, I can buy many things. I bought somethings in the Harry Potter shop which is in the station. I bought a crystal ball in London too. It was just £4. In the London, it was so cheap. And in the Liverpool Football Club, the football playground was very big. I can also see the history of football in the museum too. I bought some key rings for my family and friends too! I very enjoy this study tour.
