

My Sharings

I had an unforgettable memory on Liverpool. In this trip, I made lots of friends from different countries and all of them are friendly.

I love Liverpool very much but I hate the awful weather. Because the day was sunny in the morning, then it became rainy in the afternoon.

What a terrible day!

There was a sudden occurrence during our Wales trip. In the Wales, we had free time to walk around and bought souvenirs. When we were eating our sandwiches, many seagulls caught our sandwiches to eat suddenly. All of us felt really scared about that because we had never thought the seagulls would caught

our sandwiches. Anyway, that will become one of .. unforgettable memories on the trip.

Besides, I think the London trip is also a wonderful trip. This was the first time I visited London. Therefore, I felt really excited about the trip. When I visited the British museum

in London, I thought it was a great building.

I Love England very much and I really enjoy the trips which I went to the Wales and London. I think I will come to the UK again when I grew up.
