

My Sharings

I enjoyed the trip with my students & colleague very much. With the help by a responsible and clear-minded leader & at a similar age to my colleagues and mine, every thing worked & well. The cooperation among the three of ~~us~~^{us} was great.

Even though incidents related to students' properties & health happened, they were handled very quickly & smoothly.

I'd like to praise the way in which the Liverpool School of English organised the programme. I liked the way they made sure leaders knew what was going on ~~the~~ by holding a short meeting every morning and briefing us the itinerary before the Saturday excursions.

I enjoyed the time here in Liverpool. Although life here may not be as lively as that in HK, students can still experience the English lifestyle in a relaxing way! It's nice.

~ The End ~
