After this study tour, I learnt more about Liverpool. It is a beautiful city! We have been to Liverpool One for shopping and also visited Anfield, the stadium of Liverpool Football Club. Furthermore, we have visited several museums which is about science. I learnt more about chemistry during the visit in Catalyst Museum, I learnt the Periodic Table. Also, I learnt more to communicate with others. In our homestay, we often chat with them and their friends and also taught them to play card games! It was super fun! We also have a visit in Manchester. In there, I learnt more about its history and industry development there.

During this trip, my favourite place is the city centre of Liverpool and the Tower Bridge in

London. There were many shops in the city centre and I often go there to buy things. In London, the Tower Bridge was amazing!

In this trip, I have learnt more about Liverpool, science, history of Manchester and to communicate with others. Also, I learnt to take care of myself and others.

This trip is amazing and memorable. I will never forget the best and joyful moment I have created in The United Kingdom!

Thank You :)
