I think that this study tour was an entirely different experience for me. I have never stay at a homestay and I learnt to be more independent during this time. I like Australia a lot, the people in Australia are passionate and friendly people. They welcomed me to be their friend.

During this trip, I learnt a lot about Australian culture. I had a chance to live with Aussies, study with them, and interact with them.

I also learnt a lot about Australian wildlife. I fed kangaroos, petted emus, and had an upclose encounter with a koala. It made me understand how

amazing and diverse the wildlife really is.

Something I really liked about this tour was all the places we got to see. We went to Queensland Science Center, Southbank Parlands, Mt Coot-tha Lookout, and many more. I got a chance to see for myself all the beautiful scenery Australia has to offer.

The most memorable thing that happened was ~~definitely~~ definitely the graduation party. After 3 days of classes, our buddies and us finally had the opportunity to have fun and relax. It was my favorite event.

Thank You:)
