I very enjoy my study trip. We can learn how to be more self-regulation, experience Australia's local culture, learn how to assimilate into another group of people, English learning, practise English in field, sightseeing, broaden horizons, exercise independent, problem solving skills, make new friends and learn about the indigenous people. I love there very much.

We went to Movie World and there is popular movie related theme park, where there are various movie themed rides and attractions ranging from motion simulators to roller coasters and slow river rides, but I hate to go on the roller coaster, because I'm just scared. I love the carousel very much, it's very fun.

We went to Currumbin Wildlife Sanctuary too! I have learnt a lot of things there, such as Kangaroos are Australian animals. They eat grass and leaves. They have big strong back legs and a long tail to help them hop. They have short front legs. Baby kangaroos are called 'Joey's'. The mother kangaroo carries her joey in a pouch. Joeys drink milk.

What ever, I love Australian very much.

Thank You :)
