

### My Sharings

During this 2 weeks, I have learnt a lot of things and know more about the world in the tour. I remembered that the first day of this tour, I was so scared and nervous because I was worried about I don't have much confident to talk with the people in Australia. However, they were really nice. They encouraged us to be brave to speak English so I felt relieved. Also, I was enjoyed to attended the English class. Learning English with the students in different country was really a good experience to me. It was because we can exchange our knowledge with each other.

This is really a unforgettable trip. I've learnt to be independent. Also, I can improve my English skills and level in this trip. I really learnt a lot. Hope I can go again.
