

My Sharings

During this study tour, I enjoy very much. I think it is a wonderful trip and it will be a good memory of my life.

In Melbourne, I live with the host family and they are nice. The two children in their house are friendly and always play with us. However, they live a long way from city so I have to get up early to take bus, train to city and take tram to university. It

takes about one ~~hour~~ and a half hour. Although I always get lost in the first week, it is quite fun too! The trip in Melbourne is fun and I love the music lesson most because it's fun for me. I hope it can be longer.

In ~~Tasmania~~ Tasmania, the trip become more interesting. The ghost tour is exciting and I love the ghost story! We also visit a lot of beaches and take a lot of

beautiful photos. We also learnt to buy food from supermarket too.

This is a interesting trip and I enjoy it very much. I hope to visit Australia again in future.
