My study trip is going to Seattle. I like the country. The weather will not be too hot so I think it's good. Also, I have learnt more American culture for example what activities they will do the 4th of July (Independence Day), what they usually eat etc. There are some moments let me feel memorable, let me share two.

First, we went to the Space Needle on the fifth day of our trip. I was so excited it's so tall. We can see a board beautiful view even in a lift. The lift move in a high speed too. Also there is a guide who let you ask any question about the Space Needle in the lift. It is interesting. The most interesting^{exciting} thing is the Space Needle offered a glass floor you can see the building under your foot. It is impressive. I took a lot of

photo and post ^{on} to the social media to show off. I am brave and I went to the most famous building in Seattle, let my friend jealous.

Second, I was sick since 9th of July because we have traveled to Tillicum Village by boat. It's too windy for me although I brought three jackets that day. I felt bad after it. I got a cold unfortunately. My roommate sage take care of me. She ^{had} reminded me to eat medicine, sleep more before she went to school by herself only. She even called me at the recess time. I met a good friend after this trip. Really Thank you for her caring. It's my honour to have her be my friend.

~~This two~~ ^{Until now} are the most memorable moments ^{for me}. ~~Until now~~ Hope I will enjoy the visit of Woodland Park Zoo on tomorrow. Anyway, I love Seattle. The air is really fresh. Furthermore, people are nice to.

Thank You :)
