

My Sharings

Hello, everyone! I am Maisie from Hong Kong.

I am really honoured to have a chance to share my views and experiences about the study tour in Perth. I enjoyed myself very much.

Since I have never been to foreign countries before, I was really excited when I arrived in Perth in Australia. I had a really good impression of Perth because the weather is

fine and the air is clean and the sky is blue.

Everything here is fresh and nice.

At the first day, my host family came to our school and led us back home after the city orientation tour. It gave me an opportunity to see all the attractions in the Perth City. It really gave me a special and surprised feeling. My host family was quite nice. They always looked delicious food from different countries for us. Also, they would help

us when we were in trouble. Moreover, they had a little dog called 'Brewster'. It was quite a lovely dog. As I used to be afraid of dogs, I have tackled this matter rapidly through this trip. Because dogs here are really nice.

On the other hand, we had visited many famous and fabulous places. For example, we went to the Aquarium of Western Australia.

We played exciting Laser games. We had English classes with different countries' students. We played sports in a grassland. We visited Caversham Wildlife and Swan Valley. Also, we went to the King's Park and Margaret River Chocolate Factory. The places were beautiful and amazing. I just really wanted to have one more trip.

Time goes by, I need to end my 12-day study tour now. I cannot bear to leave here. This will be my unforgettable memory and I will remember it forever.
