

My Sharings

In this trip, the most enjoyable time ~~was~~ being with host family. They are very nice to us. In the English classes, I can improve my English. In the first lesson, the content was quiet easy. However, the lessons are interesting and I can learn things that I haven't learnt in Hong Kong before.

For example, the teacher teach us how to pronounce English more accurate, difficult tenses and new English vocabs. The teacher in our class is fun ^{and} like to play games with us, so the lessons were not boring. What's more, I like laser game arranged in this trip very much as it is exciting and fresh to me. I also like to visit the wildlife. The kangaroos and koalars are very cute. There were many types of animals, too. The sights in Perth are really beautiful.

I love perth because the lifestyle here is relaxing. The air ~~also~~ is also fresh. The beach and sea are clean and beautiful. This trip is quite ~~inter~~ interesting. I think there can be more special activities arranged in the schedule.
