

My Sharings

I am glad to visit Perth in these twelve days, there were happiness and sadness in the trip, however this is a memorable experience for me. This is my first time to travel to other country out of Asia, I like oversea very much.

In the trip, there are two most memorable things had happened. Firstly, it's my pleasure to get along with my host family and had a happy time with them in Perth. They really took care of us, also they have taught us a lot. I think I am lucky to meet this host family.

Secondly, it was a bad news. One of the day, we can't contact our host family to pick us up after

shopping, we stood in the train station with cold weather about half an hour unfortunately. However, it was a special experience for me and my partner.

To conclude, this study tour is worth for me to join.
