

My Sharings

During this tour, I learnt a lot from different visitings. In France, we visited different museums, look around the galleries. I can saw all those famous sculptures and paintings authentically. It is a great experience! I know more about the history of some famous tour spot in France like the Arc de Triomphe. I also ~~has~~ learnt a bit ^{French}, some basic words like 'Hello', 'Thank

you!'. Furthermore, I know more and experience their culture. In London, I am honour to have a chance to watch the musical 'Phantom of the Opera'. It is fantastic and is a great experience. The songs and music ^{are} great! We also visited different places and walked along the streets. Moreover, we lived independently in the dorm and we have to take care ourselves. I learnt to be independent now and become more mature. Overall, it is a good experience and I learnt

different things from it.
