

My Sharings

I think this UK and France visit was fantastic. First of all, it was a rare opportunity to join this trip. Second, I have improved my independence because nobody would help me to do anything when living in the single room in campus. Third, I had lots of great experience while visiting everywhere, such as taking photos with ^{Mona} - Lisa, and heading the river cruise in France. Also included the visit of Big Ben and London eye in London. However, all of us had a really fun experience together, it was the most impressive event. After arriving England for 1 or 2 days, we spent our afternoon for washing clothes! We all took the ^{dirty} clothes to get on the bus, and went to a laundry that was far away.

This event experience was remarkable as it was my first time to take dirty clothes onto the bus.

In conclusion, I enjoyed myself very much during the tour. I have learnt many culture and life style of French and ~~Brit~~ Britain. Lastly, I would like to thank the teachers and our guide

Gaby. They were busy to take care us and change our schedule. Thank you very much.
