This is my first time having a stud tour which lasts for 15 days. I had a nice and unforgettable experience.

Although we only had 3 days that spent on excursions and activities, I still learnt and saw a lot. Visiting the Brisbane Museum can know more about Australia, especially the animals in Australia. We spent most of our days in Groves Christian College. We met our buddies and built up a friendship. I knew the culture differences and school life through our conversation and the lessons I had with them. These experiences cannot be replaced.

I like the lifestyle in Australia which is chilling all the time unlike Hong Kong's busy life. I would like to have a holiday in Australia but I am not going to live here.

In this study tour, I've learnt many skills, both physical and mental. They use their laptop for many works and we are still using paper all the time. I became more confident in speaking English. Also, I became more independent.

The most memorable activities were playing puzzle with host family and playing with my buddies. I played puzzle which is a map of Australia. It took a long time to finish it. I chatted with my buddies in every second. We talked about everything.

Last but not least, I want to say thank you to Tina. She took good care of us and chatted with us.

Thank You :)
