Reflection

* Please write in English

I feel very honored to participate in this Scotland study tour. The purpose of my participation in this study tour is because I want to improve my English ability, I also make friends from different countries and understand the local culture.

When I first arrived in Edinburgh, I wasn't willing to try to speak English because I felt that I couldn't communicate with others, and those foreign friends had too much 'accent', which made me even more difficult to understand, but tried to listen. In a week, I found that I can understand each other's meaning and can communicate, so I feel that trying to communicate in English is effective in improving our English ability.

In the two weeks in Scotland, there will be English lesson and visit everyday. In fact, the

activity is activities are very fulfilling. I think my study tour is very happy, because we visited a lot of different places, for example, museums, art galleries, climbing mountains, Holywood Palace, The Authentic Edinburgh, Edinburgh Castle, National Portrait Gallery, Flight Museum, Arthur's Seat Hike, National Museum of Scotland, Holywood Palace, Royal Botanic Gardens, Also^{we} went to the largest city in Scotland — Glasgow, and visited the famous university in Scotland — St Andrews. One of the most impressive things for me are the Holywood Palace and Arthur's Seat Hike. Because the Holywood Palace is very delicate and luxurious, and let me know more about the history of Scottish culture. The process of climbing was a bit tired, but I think it is very worthwhile because beautiful scenery on the top of the mountain is very strong, I feel that I can see the whole of Scotland, I felt amazed,

If there is still a chance, I will work harder to get a chance to travel abroad.

Thank You:)
