My first visit in Australia Museum (Queensland Museum)

On the first day that we arrived Australia, we went to Queensland Museum. There are lots of things there and we didn't see before.

Queensland Museum is a great place that we can learn more about animals around the world. I can see lots of <sup>Australian</sup> animals photos and specimen such as Kangaroo, Tasmanian tiger, Kookaburra and even small insects. We can also see some wildlife videos about the animals in the wild. I learnt lots of things and animals facts ~~see~~ for <sup>example</sup> ~~example~~ Kiwi is a bird that can't fly but the name is same as the fruit kiwi, Kookaburra sings at the tree just like human laughing, Dingo was a Australia wild dog that came from Asia 5000 years ago and even more.

At Queensland Museum, I know more about

different animals name and facts, it's a good place to went there if you want to know more about animals, especially Australian animals.

Thank You :)
