Being my first time leaving Hong Kong without accompaniment of my parents, I enjoyed this tour very much. During my time in the local homestay, I felt care and love among my roommates and the hosts.

The study trip to Sydney was unforgettable. During my days in Sydney, I found that Australians are very helpful and friendly. I had times that I forgot my bags or mobile phone in attractions. The locals are always helpful to remind me of them. At last, I had all things brought back to home safely. This was all because of lovely locals there helping me a lot.

Through the study tour, I learnt about Australian cultures, from geography to biology, from food to living. The teacher in class provides us with knowledge on Australia as well as her personal experience, that draw our interests on the lesson.

Apart from the lessons, the visits to places also made me learnt a lot. The visits to architectures, schools, aquarium and zoo here had increased my exposure to the urban life in Sydney. This made me learn the lifestyle of people here. Moreover, the locations also brought me thematic knowledge of different fields.

The learning trip made me learn a lot and build bonds with locals and classmates, that I enjoyed the week out.

Thank You :)
