

### My Sharings

Before this study tour, while I was still begging my parents to let me join this study tour, I just wanna have fun, learn some new things and improve my English. But now, except these three points I mentioned, I gained more than those three points. In my school - Georges River

College, I met my buddy Kirsten, she is an excellent guide and also a really nice friend. Besides my lovely buddy, I went to the places <sup>that</sup> I've never imagined I would go to. Such as Hunter Valley, Port Stephens and Blue Mountains etc.

Through this amazing journey, I gained more than I thought before. I improved my English, built a

better friendships between my classmates, made several new friends in Georges River College, seen things I've never seen before. I will never ever forget this wonderful journey. This is such an unforgettable experience.
